PROGRAMME

Business

Report on 6 & 2 meter activity
Demonstration : 1 KW 2 meter Linear Amplifier !
Film: Mouth to Mouth respiration
Coffee & Cookies
Rag chew

INCORPORATION

At long last we are incorporated! In fact the date of the Incorporation I believe goes back to March, but a series of strange happenings occurred which delayed the arrival of the papers. Things such as the papers being forwarded to the Board of Broadcast Governors since radio was mentioned. It seemed as if the whole incorporation was jinxed. In fact the new rubber stamp you see on the envelope had to be redone since the word "Incorporation" was misspelled! I think the people from "elsewhere" were trying their damndest to prevent the incorporation. In any event special prayers and incantations were devised by the executive which obviously paid off. The Charter was read at the last meeting and provided much amusement for those with non-legal minds. Those with previous records had no trouble at all. The executive are now working on a Club Song ---I believe it is called the "Whip-in-poop Song". It is understood that suitable lyrics would be gratefully received. Accompany your entry with a KWM2 or equivalent in cash. I think we should also have a Club yell!

AT THE MAY MEETING

We wish to express our appreciation to the Bell Telephone Co of Canada for providing Messrs Norman and Waugh from the Montreal Office. Their Talk was on New Products in the Radio Field to Be Marketed by BTCO, and included Bell Boy 27 Paging System, Aeronautical Mobile Radio and Mobile Radio Telephone Systems. It was apparent from the question and answer period that these gentlemen had a very interesting subject.

2 Meter Mobile Transmitter Receiver Contest

This contest which was announced in last months issue of the Rambler has been postponed to the fall. Retain your copy of the Rules and Regs.

REPORT ON THE SOCIAL EVENING

This event was held at the Wallis' House on May 11th. The attendance was a little smaller than usual but a good time was had by all. It so happened that it ^{was} just before pay day and of course this may have had an effect. This was the first time that we have had a party at this establishment, and if one survived the stairs, one found the atmosphere a little more intimate than some of our other haunts (Which are increasingly more difficult to book) In fact I thought it was very nice and compact and besides it was cheap --- and it is understood that we actually made a profit despite the small attendance. Most of the old reliables were there. We should concentrate on some of the members that have never been to one of our social evenings. I dont think that it is because they are ashamed of their XYLs but rather that they prefer to keep them chained to the sink or as a pet! We all had a very good time and many prizes were handed out for spot dances, twist contests, but alas no prize for the most beer consumed. The person I'm thinking of would win with ease. So see you all in the fall season at which time our SOCIAL EVENINGS will again begin. CU there !

REPORT ON THE ROAD RALLY AND PICNIC

This event was held on Sun June 3rd and was announced on the Net and also by means of the new telephone committee formed at the last meeting. It started from the Ont side of the Champlain Bridge and wound up at Lac Phillippe for the picnic and for the more daring, swimming. The results from the rally are not available for this issue of the Rambler but will be announced at the next club meeting. This would seem to be an ideal event for the family so lets see a few more out at the next one. A good club member supports all Club activities whether they specifically interest him or not!

IS THIS YOU ?

The following was lifted from the Halifax Amateur Radio Club Bulletin which credits the Sydney Club Bulletin.

- (1) Are you an active member the kind that would be missed Or are you just contented that your name is on the list
- (2) Do you take an active part to help the work along: Or are you satisfied to be the kind that just belong.
- (3) Come to every meeting and help with hand and heart Dont't be just a member but take an active part

You know it is disappointing when the executive go to great lengths to create an event and very few turn up. Of late they have been telephoning before each event as well as announcing it on the Net. You may not realize it but it takes a lot of work to run a Club. If you are not prepared to accept the responsibility of an office I think that it behooves one to at least support all of the events; even if it means putting yourself out a little by changing your plans. Who knows you might even enjoy yourself ? The editor has been noticing a little apathy creeping in of late and as one of the original members all I can say is its enuff to give a gopher the hearburn. So call in on the Nets, attend meetings and other events ---make your executive proud of you ! You also can serve ----as a member !

SPLATTER

3CSF has another new mobile rig --an AF68 and is doing a fb job with it -...- 3 CDC Doug has the birdies out of the mobile rig ----we can now understand what he sez -...-3CEB Jack is getting ready to go mobile -...- 3BLD Fred worked Montreal recently from Renfrew on 6 Meters --easy on two but difficult on 6 Address all corres. for the RAMBLER: to the Editor, Ed Morgan VE3GX, 755 Hamlet Road, Ottawa 1, Ont.
