REPORT ON THE LAST MEETING

The last meeting was a departure from the usual in that it was held out of doors in the back 40 of VE3BJOs City View home. There was no formal business meeting just a get together of the club members and their XYLS similar to the one held at 3DMTs last year. We had a good turnout and after many 807s the free food, yes free food, in the form of barbecued weiners, buns and coffee were available in large quantities. There were two barbecues fired up, getting them started was a bit of a problem, until Emil, 3CQD offered to show us how. In no time at all the flames were soaring over the roof of the house in a fashion that would be envied in thermo-nuclear circles. In fact we even got an answer from a group of Indians attacking a settler further down the road from Bill's place. Now don't get the impression that Bill and Ida live in wild country but I'm certainly glad that the sounds of revelry combined with obviously superior "fire-power" saved us from attack. It was certainly a poignant scene out there in the back 40, Bill and Ida had large lumps in their throats watching those of us from the city obviously enjoying themselves, nostrils quivering with delight at the fresh air. Shades of "send that kid to camp"!

Our thanks to Bill and Ida for their generosity in having the gang over. We certainly enjoyed ourselves thoroughly! I was a little disappointed in Bill however, he rotated his beam a couple of times as part of the entertainment, and I thought it was the prelude to a "sway pole" act. Oh well maybe he will have the act perfected in the near future! Thanks again folks!

COMING ATTRACTIONS

At the last executive meeting it was decided to continue with the policy of former years. There will be no weekend activities during July and August due to the fact that a great majority of the members are on holiday, at their cottages or camping. We will however have our regular meetings and possibly in September will be having other activities.

FOR SALE

FORMERLY one of the greatest mobile signals from the Ottawa area in the AM category VE3BST has his complete AM set up for sale. Elmac AF67 multi band transmitter complete with mike and dynamotor for either 6 or 12 volt operation a paltry \$85.00. Also capable of operation on 6/12 volts a 5 band tuneable converter \$15.00. So like for a "C" a feller can be mobile in a high class manner. Do hope that some of you fellas that aren't presently mobile snap up this remarkable offer. In case you didn't know it Gerry is still mobile SSB/AM with a home brew transceiver.

CONGRATULATIONS

To VE3CSF Hank who won the 3760 kc call in prize. Hank also has another prize that he acquired recently, an XYL! Our best wishes to you both, may you prosper and have great happiness.

SPLATTER

It seems as if everyone is on holiday or going on holiday -...- Also a number of the fellas who recently acquired new cars are punching holes etc and should be back with the mobile fraternity soon -...- Ian 3DMT is now doing the final testing on his new installation -...- 3GX will be mobile after 3 or 4 more hours work -...- Harry 3BEB is at least getting the BC rx installed in his new bus. Hank 3CSF traded most of his mobile equipment in on a new National NCX 3 transceiver which he has operating from his apt -...- We will miss you mobile Hank, think you should get your former mobile setup cracking again -...- 3AK Eric and family on vacation in the Maritimes -...- 3BJO and family on a camping holiday -...- 3GX and family will try for the first time during peace time a bit of camp--s few sporadic sorties courtesy of one of the club members. 3BST and family back from holidays, hope Pat's knee is better -...- 3CDC going on vacation shortly -...- I am writing this in the backyard with the temperature over 90 ---have "armpit pumps" installed to take care of excess water -...- That appears to be works for this edition--- sure hope you all have a happy vacation--remember to be careful and observe all the water and highway safety rules---we need you in the club...CU you at the regular meeting 8 August 63
