FILM: Printed circuits

COFFIE & COOKIES

RAGCHEW

REPORT ON THE LAST MEETING

Art 3CGD and Andre 3CLW gave a very interesting talk on the theory of transistor or de-de supplies. They also had a very interesting test set up and actual demonstration. Thanks for a very interesting and appropriate talks chaps! New members 3ABC and 3VI although not present were welcomed into the club by the President. There was a motion to start the meeting at 8 PM in lieu of 8.15 PM, at least in theory. The motion was passed so the new meeting time is effective immediately. I don't think this will achieve earlier departure time from the meeting. I don't have to worry since I am allowed out one nite per month until after 11 PM. Of course I cheat a little by resting up between meetings hi! Other happenings at the meeting will be dealt with under separate headings later.

REPORT ON THE SOCIAL EVENING AT 3DQM's

Our last social event of the season took place at the home of Bill & Ruth McLeod Friday 29th May. The crowd though relatively small had a wonderful time! Yours truly is still stiff (physically that is) which is a living testimony to the festivities. One of the dances was rather novel and featured Nursery rhymes. I still think this was in error, but a welcome

and refreshing change ! Like who slipped the kiddies discs into the pile? It seems that polkas are become as popular as the twist and smaltzy dances, geez you really have to be in condition to hack an evening like this. I have a feeling that Canada is going to adopt Mobile Club socials in place of the 5 BK plan for physical fitness! Who needs Instant Sanka coffee for calm nerves ---booze is better and quicker ! At midnight--just when I thought I was going to turn into a pumpkin, Ruth sallied forth bearing the food, consisting of delicious cold meats bread and very excellent chili ! By golly the old diet went for a proverbial ! Very enjoyable indeed , and on behalf of the Club, I would like to thank Bill 3DQM and his XYL for all their trouble and work and for making their very excellent rec room available for the "do". Many thanks and many doffs of our mobile whips to you good kind folks! We sure had fun!

FIELD DAY

The site has been selected and it is only about 20 miles from Ottawa. This will no doubt please those without cars ! It is an excellent site with high trees appropriately located to hang our antennas. The FD Committee have decided to rescind the previous power limitation of 30 watts and under since it is difficult with most equipment to operate at that power level. So 150 watts and under will be the order of the day! There will be two stations one cw and the other SSB. Those of you who are not good CW ops or are kind of leery of FD fone operation, half hams etc., why not come along and work as loggers for the others. You can have just as much fun and are every bit as essential as the operator. If you don't like operating and logging why not come along and feed the mosquitoes. An act like this is most humanitarian and will certainly cut down on the number of bites per body! More news at the next meeting ! June 27/28 is the FD date.

CONGRATULATIONS

To Doug 3GDC for volunteering to take over the coffee and lunch for the balance of the year. Doug made his debut at the last meeting and did very well indeed although I did think that his towel wasn't at the correct angle ! The 3GX/3CGO combination who handled this chore for over 3½ years without fail were asked to comment on the new man Quote: "He is a good kid---a little rough on the edges but given time he will show great POTential " Best of luck to you OM !

FOR SALE

By Harry Hayes 3BEB Gonset tri-band converter, can be used on 6 or 12 volts and can be converted to five bands very easily . A steal at \$20.00

CALL LETTER LICENCE PLATES

Our honourable secretary at the request of the membership sent for a copy of the Legislature of Ontario Debates dated Monday, March 2, 1964. This particular daily edition covered the "Call Letter Licence Plate" debate in the Legislature. If you haven't read anything humorous or pathetic recently get a copy ! I am afraid the RSO though well intentioned boobed by not introducing a bill. An act of Parliament or bill are the only two sure and safe ways of obtaining the privilege and ensuring that it is not taken away by a change in government! The debate certainly isn't very conclusive in its outcome but then I am not a Parliamentary interpreter . Perhaps we may have further static later, I somehow doubt it though! Kind of sad for those who busted their bottoms getting petitions signed! Take heart maybe the next attempt will be successful, you may obtain solace from the fact that you have participated in a democratic movement impossible in Iron Country countries !

MEMBERSHIP ROSTER

You will find enclosed the latest edition of the membership roster. Please destroy the previous issue. Tack this one up on the shack wall or staple it in the telephone book for ready reference. I think you will agree that this list more accurately reflects the actual membership. On some of the former lists we had members that never attended a meeting and others that attended regularly once every two years.

SPLATTER

Remember former charter member Frank Lay formerly 3MB and now 4ZK---understand that he is about to return to Ottawa---hope he is still an active mobiler and wants to rejoin -...- Harry 3BEBs XYL Helen is in hospital but I am pleased to report that she is progressing well ---speedy recovery and best wishes Helen -...- 3DYM Scott just needs a mobile antenna to make his mobile debut -...- 3GX making transistorized mobile Q multiplier to replace the Heath -...- Mac 3VI is visiting his son in NYC--- He called in mobile cw from NYC on the Sunday and passed a message---pretty good for that time of the day---who sed CW isnt useful? ---hope you have a nice visit Mac -...- 3CEB is back mobile after a long rebuilding session -...- 3BEB Harry just needs his new antenna and he will be mobile -...- 3BST Gerry had a minor operation on his bean---no you guessed wrong --he wasnt installing an SSB filter in it -...- 3CDC Doug is selling his Queen Mary ---guess he cudnt pass his CB test so he had to give up yatching -...- 3CDG Art is changing QTH --presently on the lookout for a suitable place -...- Understand that 3CLX Jim is going to take the big plunge in the non too distant future --matrimony -...- 3BPT Glen is back on the air from his home station after a spot of trouble with the rig -...- Bill 3BJO is off camping again ---boy you really have to be hardy to withstand the wx we have been having of late -...- Former member Don Graham 3EMW who has been in Africa, Ghana to be exact, recently had a second Jr. cp added to his family. Boyd 3CMO recently had a new harmonic a transmitter ---congratulations to you and Myrtle -...- Have a late report that Roy 3CFVs place at Petawawa was entered and his SX 99 Receiver and VFO for his Viking 2 were stolen---anyone hearing of a person trying to sell this type of equipment please contact Roy-- I just picked this item off the Ontario fone net so am not sure how accurate it is as far as the equipment description is concerned since it wasnt repeated-- Sorry to hear about it Roy--do hope you get them back -...- ..-..

I must apologize for the fact that the new membership list has a vacant address but our communication link with the secretary broke down leaving us with several questions unanswered ----Hope no one was left out---if so t'aint our fault.

DON'T FORGET ABOUT THE NEW MEETING TIME 8.00 PM

73 & Happy Mobiling---CU at the meeting
