TECHNICAL DEMONSTRATION: 1 KW Linear Amplifier with built-in power supply (by VE3BJO)

FIELD DAY REPORT & DISCUSSION

OPEN TECHNICAL FORUM

REPORT ON 6 & 2 METERS

FILM: Semi Conductor Physics

COFFEE & COOKIES

REPORT ON THE LAST MEETING

3BJO Bill was unable to make the meeting to demonstrate his linear. André 3CLW bridged the gap with an on the air demonstration of his homebrew completely transistorized transmitter-receiver, battery operated and contained in one package, a walkie talkie no less. 3AGU braved the elements and went down to his car to prove that the walkie-talkie does in fact work very well indeed. André described the circuit in general terms and explained the areas which caused a few problems in the design. Thanks very André, most interesting indeed. The BTCO film Similarities in Wave Behaviour was substituted for that originally scheduled. It certainly illustrated in no uncertain terms the facts of life with respect to VSWR. A wave machine of the mechanical type illustrated the behaviour of waves in a very practical manner.

SOCIAL EVENING REMINDER

In the event that some of you receive this on the day of, or just prior to the event, you are reminded that our first Social Evening of 1965 is being held at a new location, the RCAF Association (410 Wing) conveniently located at 913 Carling Avenue. Plenty of parking in the #8 Temporary Building lot just across the street. Tickets will be available at the door \$1.25 per head. Like that's \$2.50 per couple! Prizes eats and all sorts of goodies on hand! Book a baby sitter if necessary and come along. No prior booking or notice necessary so if you decide at the last minute to come you will be more than welcome. Lets have a banner turnout! Last months issue of the Rambler contains more details if required. Time 8.30 PM, actually the bar will be open at 8PM. So come early and bring a guest couple if you can!

MEMBERSHIP LIST

The Membership List has been included with this issue of the Rambler. Please tack it up on the shack wall or some other place where it won't be lost. It will be noted that there are some inovations in the format.

FOR SALE-FROM ESTATE OF DARCY FREZEL VE3ADF

The Club has taken on the job of assisting Betty in the disposal of Darcy's ham gear. Darcy was a member of our Club a few years ago and attended a few meetings and Socials, but was unable to participate actively due to a severe heart ailment. Jack 3YC has actually done 99% of the work in cataloging, packaging, cutting, storing etc. I might say Betty is most grateful for the assistance. The prices on the following items are estimated hold prices. If you wish to bid against any item you may do so by viewing the items at 3YC 512 Sherbourne Rd, call first please at 722-8132, and make an offer. All items not sold will be auctioned at the May Club auction. The list reflects only major items so Drop around and see it at "Jack's Emporium". Since Darcy was un-insurable any money derived will be of great assistance! You will be helping his estate as well as yourself.

AR88 Receiver	\$100.00	3" Mod Mon. Scope comp. with PS	\$10.00
Heath Q Mult.	15.00	Grid Dip Osc homebrew	5.00
Small PS	3.00	AF Osc. 20-20KC homebrew	5.00
HV Transformer Hammond		HV PS surplus (not complete)	5.00
1250 each side	10.00	100 & 1000 Kcs marker (commercial)	5.00
VHF Converter-Homebrew	\$2.00	Hammond Cab. Approx 8X9X16	3.00
Microphone Astatic 200S	3.00	Tuneable IF Strip for VHF Converters	
Grab Bags	1.00	complete with power supply	3.00
Meters	1.00	Self powered 60 watt modulator	10.00

Transmitter complete with HV PS. Thought to be 75-40-20-10 meters. Power 250W. Clamp modulated. Lower Pass TVI filter built in. Power supply 1710 V each side with 866's. All Hammond components. Exciter included in deal 100.00
 There are also HV condensers, tubes receiving and transmitting etc. So call Honest Jack and make him an offer since if it goes to the auction you might have to pay more.

FIELD DAY - A CHANCE FOR EVERYONE TO PARTICIPATE REGARDLESS OF ABILITY

The Executive have discussed our participation in this great event. The general parameters have been established and a FD Chairman, Lyle 3CEZ appointed. It is assumed that Lyle will be reporting on the parameters established by the Exec as well as to ascertain those willing to attend and serve on the Committee. In the opinion of the Editor the following are the ingredients for a good and succesful FD. (1) As many Club members as possible should participate to alleviate the operator shortage. (2) Operators should not be imported. This is a Club Activity for members of the Club. (3) While the Emphasis should be on doing as well as we can point-wise, this should not over-shadow the real reason for the event "Operation under Emergency Conditions" It should not preclude our enjoying ourselves. In some Clubs and groups FD has come to mean a "24 Hour Boozing Contest", this has never been the case in our Club. This is for the benefit of our newer members. Our great problem is the lack of operating and physical assistance, which places an unfair burden on a few. If you arent a good operator, this doesnt mean you cant participate. There are a dozen jobs you can do which are as vital to the success of the event as the "good" operator. You can have just as much fun. After all the "fun" is the comradship resulting from joint participation in an effort that combines camping, ham radio and team-work. SO LETS MAKE THIS THE BIGGEST AND BEST FD EVER --LIKE --JOIN THE TEAM MAN AND GO OUT THERE FOR THE ENTIRE 24 HOUR PERIODIncidently the site is the same as the excellent one we had last year..all agreed that it was the best yet.

RADIO SOCIETY OF ONTARIO Inc.

If you are not yet a member of this organization or wish to renew your membership for 1965, send \$1.00 to Radio Society of Ontario Inc., P.O. Box #334, Toronto 18, Ontario. Dont forget to include your name and call. If you dont agree with its priciples, that is all the more reason to join. Bill Rolfe our Trustee has broad shoulders and I am sure be glad to bring your woes, if any, to their attention. It is the only organization we have in Ontario and as such it does reflect amateur opinion. It could help to protect us from bodies dedicated to the "Worship of the Almighty Dollar" U.S or Canadian!

SPLATTER

Ian ex-3DMT is sporting new call 3CZ -...- Harry 3BEB is now operational with his HW 12 from the home station -...- Glen 3BPT is also now operational from the home station with his "Hot Water" 12 (Maybe that should read "Hot Watter") Just discovered a "Dark Horse" recently. Scott 3DYM owns a sulky type race-horse! Dont you know anything? the sulky doesnt refer to the horses temperment....like its a type of racing! -30- 73 & Happy Mobilizing CU AT THE MEETING
