REPORT ON 6 & 2 METERS

COFFEE & COOKIES

RAG CHEW

## REPORT ON THE LAST MEETING

It was SSB transceiver night in Ottawa. The table was loaded with the following: SB34, SB100, TR4, KW 2000A and 3BSTs latest homebrew. Each of the proud owners gave a short talk on the features which were listed on the board by 3FCK who later evaluated them in terms of money and qualities. The SB34 was not owned by one of our members but was demonstrated by 3BGX. It was certainly a most interesting night since it was possible to twiddle knobs and behold these beauties in person. Grouped on the the table, they collectively represented a fearsome amount of money. It was certainly very nice to be able see them in the flesh and hear of exploits by the owners or custodians. Thank you very much indeed chaps for a most interesting evening. 3FCK Fred also had his Joystick antenna on display, the mobile version. I rather think that this antenna in its present form is best used at night a a very low mph speed. Daytime use might result in a flood of UFO siting reports! Nice to see Frank 3ZN, Bill 3YK, George 2GP, Andy 2AN, at the meeting.

AUCTION 30 APRIL 66

To be held in the EMO Building 495 Richmond Road. Registration of equipment until 12 noon. Auction from 1 PM to 5 PM. Out of towners welcome to bring items for auction but they must be logged before noon. Club will take 10% for providing the service as usual. Anyone wishing to donate items to swell Club coffers is most welcome to do so. Mark your item Mobile Club and your call so that you will receive credit for the donation.

CLUB MEMBERSHIP LIST

As promised the Club membership list is included along with this issue of the Rambler. Some members have left the district to become DX members. Others have left the district with no apparent desire to continue their affiliation. As a counterbalance there are new names added to the list. The Executive wishes to thank the members for the prompt payment of dues.

SOCIAL EVENING

Don't forget our gala social evening coming up 14 May at the RCAF Association Quarters 911 Carling Ave. Mark your calendars. Book a sitter. Members are encouraged to bring along guests. Glenn Pack 3CGP and his famous orchestra will be in attendance to supply music. It is conveniently timed just after Beaver BM time so the modest fee will not be a hardship!

FIELD DAY

As previously reported plans are being formulated. Our new FD Manager Glenn 3CGP is looking forward to your support. So let us make it a bigger and better effort.

CLUB CAMPING WEEKEND

A large number of our members are campers. Tenters, Trailer fiends and Tent Trailer buffs arise! A number of us have talked about such an outing. What about making it a fact? We could have a very fb weekend at a campsite of our choosing. How about a wagon master or a group to work out the details for one or more outings this summer? The season isn't too far off!

POST OFFICE BOX 6161

The Club sponsored QSL Box is working out very well. Don't forget to use it. Your call and P.O. Box 6161, Ottawa Ontario, Canada is all that is necessary for area amateurs.

SPLATTER

Heathkit SB100 fever has struck several members of the Club -...- Mac 3VI has completed his and has it operating -...- Gib 3BGX has one half completed and will be keeping his HW12 for mobile operation -...- 3SH Bernie has one on order and expects to receive it any day -...- probably there are others being constructed as a surprise -...- 3DMU Gord purchased 3YCs HW12 (via 2AN) complete with AC and DC supplies and has it operating both fixed and mobile -...- 3YC has purchased a new EIKO scope and an audio type tunable filter for use in conjunction with his TR4 -...- 3GX Ed had a telephone QSO with Mike ex K5IJV and his charming XYL Carlisle who reside in Germany --Unfortunately 3GX did not have the opportunity to visit them personally on his recent sojourn in France---but will certainly do so if the opportunity for another trip arises ---Mike is active on SSB and will be on lookout for Ottawa stations around 14,150 Kcs -...- 3CSF Hank is making noises that may result in his return to mobile operation with his NCX3 -...- 3DQM Bill is having lots of fun mobiling with his NCX3 and putting out a terrific signal -...- 3ABC Tommy with 3DQM Bill at the controls had several hours flying over Tommy's haunts in the Calabogie district---Tommy took quite a few pix but found the wx rather cold on his pinkies ---Tommy with his multitude of vehicles must have covered nearly every inch of the ground around Calabogie and now knows what it looks like from the air ---unfortunately they had no amateur radio equipment aboard on the flight -...- 3AK Eric has returned to the air after a long absence and has been heard on the Net several times---Welcome back OM -...- 3FCK Fred has turned over the SB100 that he built for 2RC in Montreal ---2RC seems to be having lots of fun with it -...- Fred must have found it rather difficult to do ---but I imagine that by now he has stopped crying :-.-.
