REPORT ON THE LAST MEETING

Larry Kayser VE3QB gave a very interesting talk on Micro-Processors and their application to Amateur Radio and industry. He had a large amount of equipment on display and handed around many exotic items for the members to examine and admire. He traced the recent history of micro-processors and their many uses in Amateur Radio and industry. A most informative talk Larry! Many thanks for providing us with an insight into this fascinating aspect of Amateur Radio.

Kathy Eaton, Officer i/c of the St. John Ambulance Brigade first aid operation wishes to express her appreciation for the valuable contribution made by the Ottawa /Hull area Radio Amateurs. Doreen VE3CGO, organizer of the Amateur Radio Communications aspect wishes to thank all Radio Amateurs that participated, loaned equipment and offered their services as standby operators. Doreen also wishes to thank the Ottawa Amateur Radio Club for the use of 2 meter repeater VE2CRA. Also thanks to those who refrained from using the repeater during the event. Congratulations for another job well done. Radio Amateurs seldom get any credit for this type of operation due to their low profile quiet excellence. CBers with their flashing lights, sirens and other flamboyant trappings seem to steal our thunder but I am sure that most of us are content to quietly serve our community. It was nice to see several high school students recently licenced participating. Three doffs of our mobile whips for another example of Amateur Radio communications capability.

FIELD DAY 25-26 JUNE 1977

The Club will participate in this annual test of Amateur Radio communications under sometimes adverse conditions using emergency power. This might sound ominous to newcomers to Amateur Radio but in actual fact it is a lot of fun and provides a 24 hour outing for the entire family. Lots of room for tents, trailers and the like. Childrens events on Saturday afternoon and a BBQ for all Saturday night. The Field Day this year will be co-ordinated by the Executive under the Chairmanship of the President Ron VE3HDO with Ron VE3FMW i/c of the CW position and Hutch VE3GUJ, the fone position. We will be operating in the two transmitter class as in previous years using all-band dipoles and possibly a beam. Merv VE3CV will be co-ordinating the operating schedule and will be contacting all members to ascertain if they plan to attend and preference as to time and mode. The June meeting will feature a full briefing and operating suggestions for those who have never operated in a contest. The June Rambler will include a map of the FD site.

ARRL CONVENTION 3,4,5 JUNE 1977 - TORONTO, ONTARIO

This forthcoming convention should be super judging from the program and events appearing in Canadian publications and QST. Be sure to register soon and join the crowd heading for Toronto.

RAMBLINGS

Boy we certainly have had a full month, first the auction and then Metres For Millions, the ARRL convention and Field Day should cap the pre-summer activities ---- Ian VE3FKC has an Atlas 210X transceiver ---- Heinz VE3GOS has a new TS700A 2 meter SSB/FM rig ---- Ron VE3HDO has a new station wagon and has his HF mobile operating from it ---- Tom VE3ABC has been in and out of the hospital --Speedy recovery Tom ---- Sydney VE3GVI and family have moved into their new QTH ---- Can't think of anything more, guess the recent events have taken precedence ----.
