Ron described his preparations before Net time, the Net introduction, check-in procedures, formal vs informal Nets. He indicated the time and frequencies of the Fone Nets which would be most useful to us in our area. Many thanks for a most interesting talk Ron!

Rob VE3ACY gave a talk on the more formal aspects of traffic handling using the National

Traffic System CW Nets. He described check-in procedures, preparation of messages. Rob had a handout prepared with an example of a message, a list of the most commonly used Q and QN signals and a flow chart illustrating the National Traffic System. Many thanks for a very interesting talk and the trouble you went to in preparing the handout!
